

A Psalm of Hope

Dear God,

Please listen to my prayer and help the animals in the world.

People are polluting the earth with plastic, gas and oil, which is killing the animals and causing climate change.

May you help the animals and help the people to notice that what they're doing is wrong.

I know that you will help because you are as strong as a gushing river and as mighty as the largest mountain.

No one understands that they're killing the beauty of this planet and the people doing this should be taken down by a mighty beast that their pollution had poisoned.

Thank you for listening to me.
Amen

CLIMATE CHANGE

Dear God, please help us to stop climate change in this difficult time.

All mighty God please stop air pollution.

I pray you can make the climate stable again.

You're the Lord and I know you fix anything ~~in~~ need.

Please help humans realize ^{we} we're in this big situation.

Praise the Lord our God He has answered my prayers.

My Psalm

Please Oh God, please
listen to my call of hope.

The problem dear God is deforestation.
People are cutting down too many trees!

Help me I cannot bear anymore cutdown trees
Save the animals in the forests and jungles.

Make the people cutdown trees
and let one fall on their wicked heads!

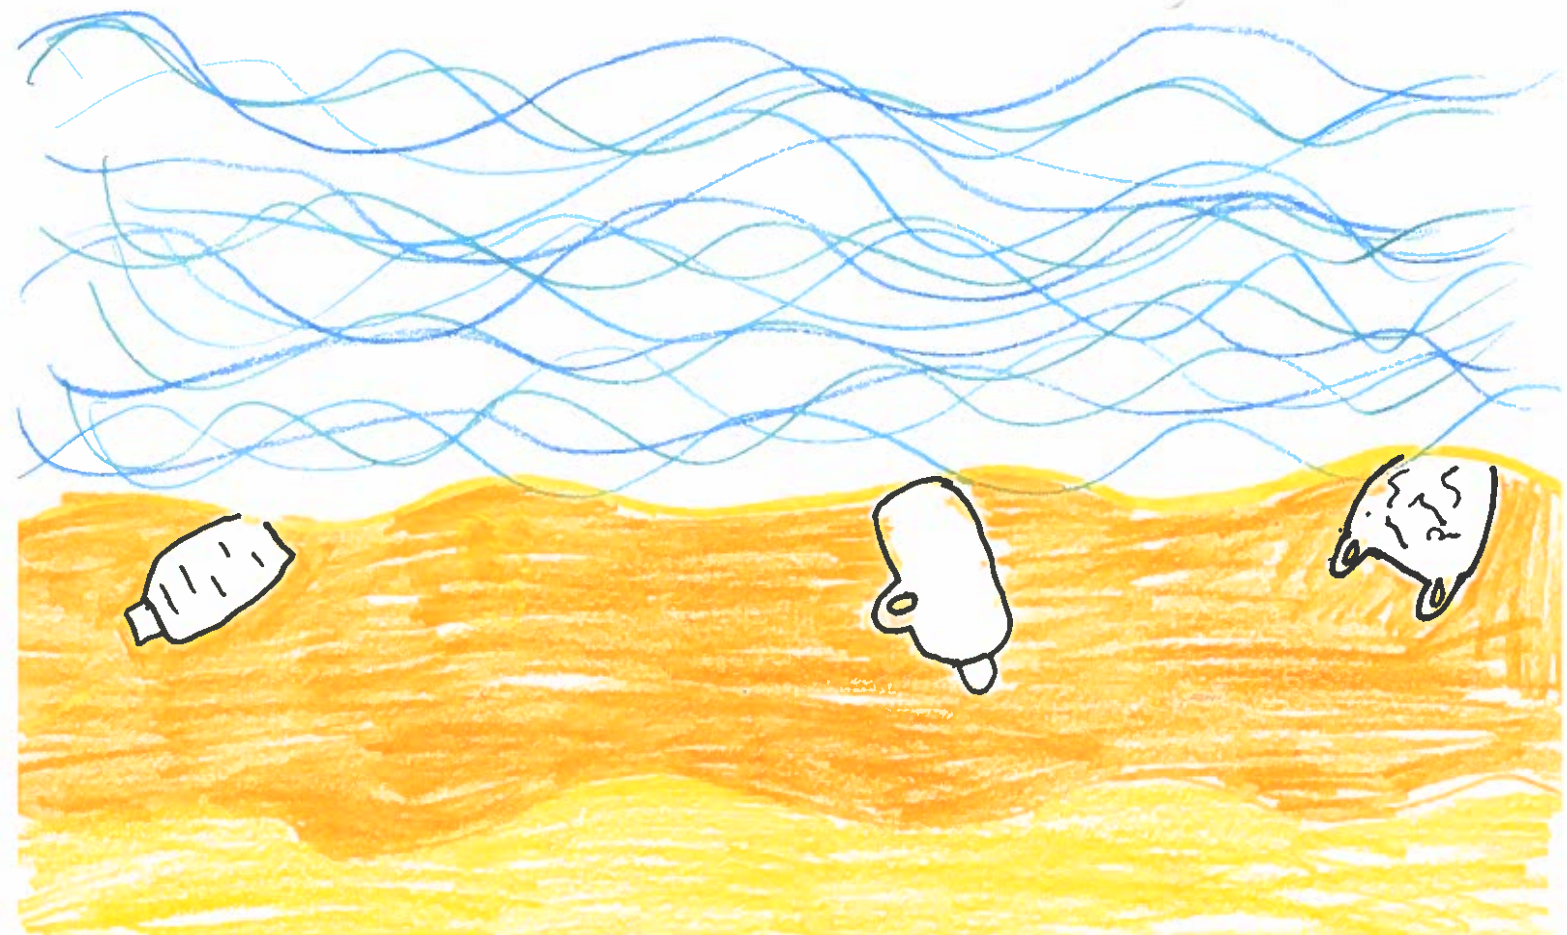

Thank you Lord for listening to my call,
Thank you for all your help in the world,
Thank you for all you have given to everyone.

By Susie

A PSALM OF HOPE

Oh Lord, help us about our problem,
our problem about pollution,
Your majestic sea creatures will be extinct if you
let your people do this,
Mighty God you protect us for you are our shield,
our shield of hope, love and forgiveness,
Wonderful Lord, if they don't stop this they
shall become sea creatures and die of plastic,
Thank you for listening, God of the world,
We will try to do our best to protect your planet,

A Psalm of Hope

Dear God, we call you to listen,
We ask for your help.

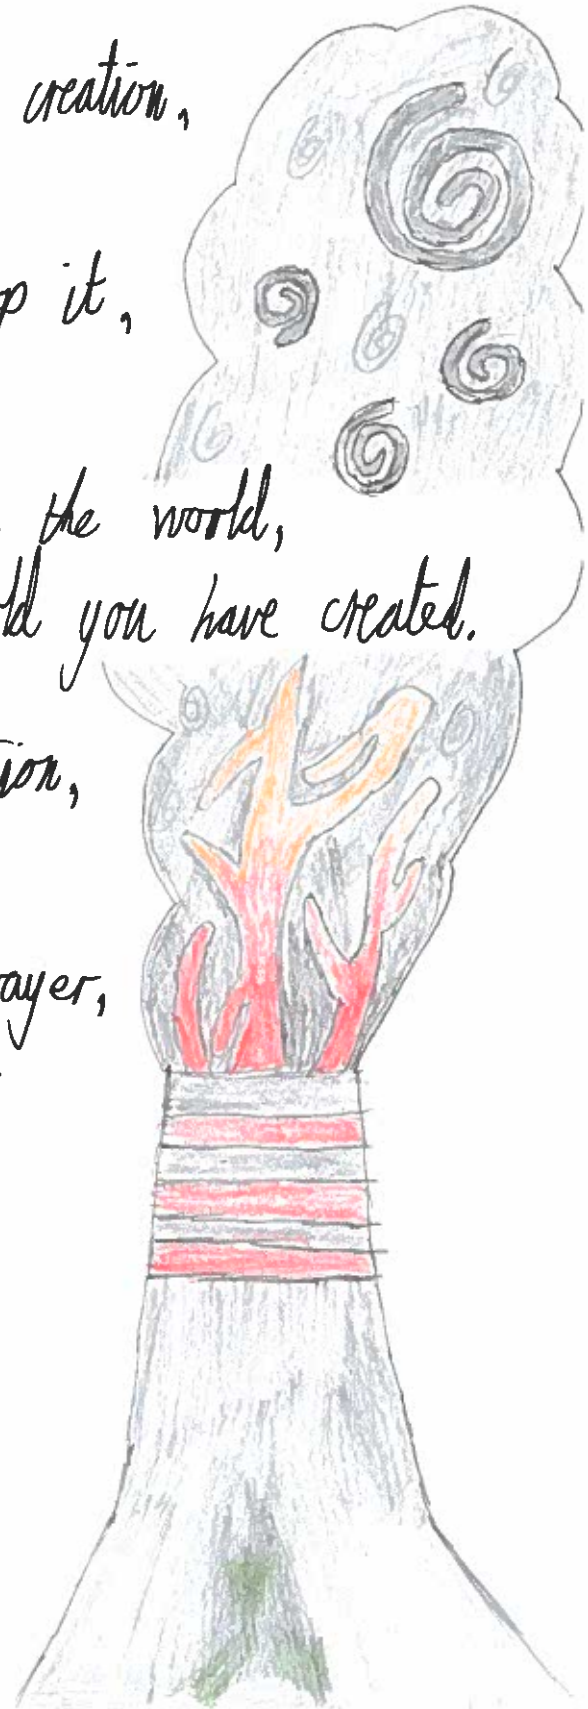

Climate change is destroying your creation,
It is ruining your world.

Please help us work -together to stop it,
Help us take care of your world.

We know you will help us save the world,
We need to cure the beautiful world you have created.

Some people are helping pollution,
Some are ruining nature.

Thank you for listening to our prayer,
We praise you for caring for us.

A Psalm of Hope

Listen to me oh Lord for there are people who are starving and are without shelter.

Help them oh Lord as they cry for help. There are many who have no food or shelter, no home to go to and are invisible.

They starve and they follow many hardships please help them oh Lord.

For you are our Messiah and Saviour but you are also our friend.

Help them oh Lord for they are poor souls rescue them from their pain.

You have led many to victory and you have always looked upon us, you shelter us with your holy love and protect us.

There are people who refuse to help and they give nothing let them rot in the street and suffer in pain.

Oh Lord for you are so good. The people now know they are in your protection and their spirits have now been lifted.

TREES

A Psalm of Hope

TREES

God hear me, listen to the problems of the world
God listen to the world as I love you dearly
with all my heart and soul.

The problem is people are cutting down the beautiful,
special trees you created and they are destroying
homes of the animals.

I pray for help please stop this situation from
happening. Please help trees stay strong.

I know you will help me because I can trust you and
you always guide me in hard situations, also because I
have devoted my life into being a christian and placing
my life in the palm of your hands. I know you will
help me because every magnificent tree you created is
special in its own unique way.

Curse the people who employ the workers which are
chopping down the innocent trees, let the tree fall
down on them.

Thank you for listening to my worries and one
of many problems of the world.

A Psalm of Hope

Dear Lord,
I am calling to you for help,

Nature is being destroyed by air pollution,
We need help to cut down our carbon footprint,

Lord we ask for your help to save your
creation,

We need your help to bring people to a
Realization.

We know the Lord will help,
God is always by our side,
God will have mercy and help us fix our mess

May the people polluting realize, then repent,
May the people polluting help the world go
Back to its peak.

Dear Lord we praise you and thank you
for sending those who are aware and are
alerting the world of their actions.

BY Sara B

My Psalm of Hope

O, Lord hear my call as we need help.

Deforestation is happening and many animals are losing their homes

Help me with deforestation and help people to understand what is wrong and how they should stop it.

We are sharing this world and you made it. You help us when we ask in our prayers.

Please stop the people who are cutting down the trees and let them know what the outcome is.

O, God thank you if you are listening to me and what we have said. Thank you for helping this planet and answering our prayers.

TREES

A Psalm of Hope

God help the world, listen to our prayers. We are being restricted from our social life, while people in the world are suffering.

Please make the world a more peaceful place and stop the spread of the Corona Virus. Please end this time of restriction.

God help us, help us overcome this time of restriction and confinement inside our houses.

God, I am sure you will help for you helped Daniel and saved him from the pit of lions, as you helped David defeat Goliath.

Shame on those who made this unnatural and vile disease spread throughout the world, engulfing peoples lives.

We thank you God, for the cases are getting lower and we are now back at school.
